Clutch Player

▼ Increased power and torque can cause the OEM clutch's lifespan to decrease dramatically—duh. For this reason, ProClutch offers a line of high-performance clutches for Acura Integra 1.6-, 1.7- and 1.8-liter applications. Each high-performance kit undergoes rigorous production and testing procedures to ensure the plate, disc and bearings are precisely manufactured. Proclutch offers clutches for both street and track use.

• For more information and other applications, contact ProClutch at (626) 527-6883 or surf into www.proclutch.com.

Auto PC

◀ The Revolution Auto PC from G-NET Canada is a full-blown, in-vehicle computer system that allows users to play MP3s,

digital video, DVDs, and use PC applications in their cars. It also supports GPS navigation, vehicle diagnostics, wireless Internet and e-mail. The system consists of a tiny computer, small LCD screen and touch pad, all mounted inside your vehicle. The Revolution Auto PC can be easily installed into nearly any vehicle. G-NET has a wide range of LCD display and hardware options to meet the needs of any user.

• For further information, call (519) 623-4901 or go to www.gnetcanada.com.
