POWERHEAD

If you're into SPL, then this amplifier is for you. Ultra Linear's new UL600HC channel high current amplifier features an unregulated PWM power supply, a cooling fan, and thermal, short and reverse protection.

For more information, contact Ultra Linear at (800) 848-6748 or check out www.ultralinear.com

Centerforce® has new Honda and Acura applications in its line of high-performance flywheels. These SFI-approved flywheels are designed for select 1990-2001 Integra, Civic, CRX and Del Sol vehicles. Each wheel is precision machined and balanced to offer perfect weight distribution and increased strength, and each includes high tensile strength Grade 10.9 pressure plate bolts, a roller pilot bearing and dowel pins. Designed as a direct bolt-in replacement, these new flywheels will work with O.E. clutch systems, as well as the entire Centerforce line of aftermarket clutches.

For more information, contact Centerforce at (928) 771-8422 or go to www.centerforce.com.

The Revolution Auto PC from G-NET Canada is a full-blown in-vehicle computer system that not only allows users to play MP3s, digital video, DVDs and use PC applications in their cars, but also supports GPS navigation, vehicle diagnostics, wireless Internet and e-mail. The system consists of a tiny computer, small LCD screen and touch pad, all mounted inside your vehicle. The Revolution Auto PC can be easily installed into nearly any vehicle; G-NET has a wide range of LCD display and hardware options to meet the needs of any user.

For more information, call (519) 623-4901 or go to www.gnetcanada.com.
