0/Stroke Light Windshield Washer Squirters

### YES, STROBE LED WINDSHIELD WASHER SQUIRTERS ARE HERE

Xanatos Automotive introduces its new line of LED Strobe windshield washer squirters, available in red, blue, green, yellow and white. The squirters come complete with their own control box, where you can control the speed of the flashing strobe. It also comes with a three-function switch that allows you to choose between LED, LRD Strobe or Strobe alone.

For more info, contact Xanatos Automotive at (908) 282-1880.

## GET MORE POWER THROUGH FLOW TECHNOLOGY!

### NEW CUSTOM INJECTORS

These high performance injectors are available in a wide range of flow rates and spray patterns. They come in sets matched to your needs, and available for flow requirements from 15 lbs./hour to a whopping 160 lbs./hour (1600cc per minute). Our experienced technicians can evaluate the modifications and power-adders done to your engine and provide the optimum injectors for your application.

### ONLINE SYSTEM DATA

Visit RC's website (www.rceng.com) for an analysis of your vehicle's fuel system and find out what's best for you! With over 30 years experience in high performance fuel systems, plus a huge database of dyno and flow numbers for injectors and various fuel system components, RC Engineering is uniquely qualified to help you achieve INJECTION PERFECTION.

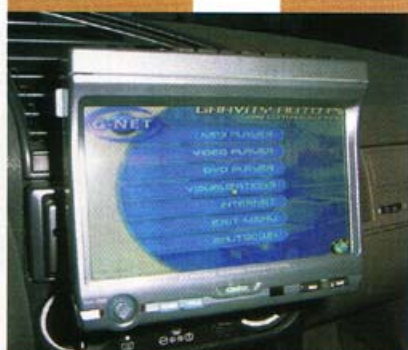

### BLUEPRINTING SERVICES

We can take your OEM fuel injectors and thoroughly clean, balance and blueprint them to exacting specifications. The turn-around time is only 24 hours. And we'll provide you with a detailed report covering before and after performance of each injector, a fuel system analysis, and performance evaluation. Details regarding your particular application will be factored into the equation.

### FULL-BLOWN IN-VEHICLE COMPUTING

The Revolution Auto PC from G-NET Canada is a full-blown in-vehicle computer system that not only allows users to play MP3s, digital video, DVDs and use PC applications in their cars, but also supports GPS navigation vehicle diagnostics, wireless Internet and e-mail. The system consists of a tiny computer, small LCD screen and touch pad, all mounted inside your ride. Easily installed into nearly any vehicle, G-NET also has a wide range of LCD display and hardware options to meet your needs.

For further details, contact G-NET at (519) 623-4901.
